*Repatriation to France and Germany* - Matthias Walther 2014-05-19

A significant amount of German and French career agents are involved with international careers. Applying Bourdieu's Theory of Practice, Matthias Walther compares the repatriation of German and French career agents into the external labor markets of their parent country career fields. A qualitative content analysis of 40 semi-structured interviews shows that the German and French career agents' career capital and habitus develops during expatriation, which has an important impact on the re-integration into the parent country career field. The Author shows that in an international career mobility context, the rules of the game change compared to the rules in a pure national career context, which challenges the pertinence of national career models in understanding repatriation in a Franco-German context.

**Adverse Effects of Vaccines** - Institute of Medicine 2012-04-26

In 1900, for every 1,000 babies born in the United States, 100 would die before their first birthday, often due to infectious diseases. Today, vaccines exist for many viral and bacterial diseases. The National Childhood Vaccine Injury Act, passed in 1986, was intended to bolster vaccine research and development through the federal coordination of vaccine initiatives and to provide relief to vaccine manufacturers facing financial burdens. The legislation also intended to address concerns about the safety of vaccines by instituting a compensation program, setting up a passive surveillance system for vaccine adverse events, and by providing information to consumers. A key component of the legislation required the U.S. Department of Health and Human Services to collaborate with the Institute of Medicine to assess concerns about the safety of vaccines and potential adverse events, especially in children. *Adverse Effects of Vaccines* reviews the epidemiological, clinical, and biological evidence regarding adverse health events associated with specific vaccines covered by the National Vaccine Injury Compensation Program (VICP), including the varicella zoster vaccine, influenza vaccines, the hepatitis B vaccine, and the human papillomavirus vaccine, among others. For each possible adverse event, the report reviews peer-reviewed primary studies, summarizes their findings, and evaluates the epidemiological, clinical, and biological evidence. It finds that while no vaccine is 100 percent safe, very few adverse events are shown to be caused by vaccines. In addition, the evidence shows that vaccines do not cause several conditions. For example, the MMR vaccine is not associated with autism or childhood diabetes. Also, the DTaP vaccine is not associated with diabetes and the influenza vaccine given as a shot does not exacerbate asthma. *Adverse Effects of Vaccines* will be of special interest to the National Vaccine Program Office, the VICP, the Centers for Disease Control and Prevention, vaccine safety researchers and manufacturers, parents, caregivers, and health professionals in the private and public sectors.

**Policy analysis in France** - Halpern, Charlotte 2018-01-03

Policy analysis in France lays the foundation for a more systematic understanding of policy analysis in the country. In doing so, the volume discusses the role of the State and its restructuring, processes of government and governance, and State-Society relationships and policies as both a process and an outcome. Through 18 chapters contributions focus on policymakers, their practices, ideas and discourses, how they engage in sustained relationships with a large variety of market and society actors, and the concrete devices they use in order to make policy objectives operational. This is a comprehensive study of policy analysis in France that will be valuable to academics and postgraduate students researching and studying a range of policy and public management areas.

*2008 Writer's Market* - Robert Brewer 2007-07-06

Incorporating all the great information writers have to come to expect for more than 80 years, this latest edition features higher profiles of its author interviews, five new market sections, and the most up-to-date market listings available to help readers find success.

**The 9.5mm Vintage Film Encyclopaedia** - Patrick Moules 2020-07-28

Written in both English and French, *The 9.5mm Vintage Film Encyclopaedia* provides a single-volume, comprehensive catalogue of all known 9.5mm film releases, including: Films: Comprising 12,460 individual entries, this A-Z reference index provides the main listing for each film and its origin where known, along with additional information including cast and crew, and cross references to other relevant material. People: This index of all known actors and film crew, comprising over 12,000 names, provides a listing which is cross referenced to the main entry for each original film they worked on. Numbers: Pathé-Baby/Pathéscope and other distributors' catalogue numbers, film length, release dates (where known) and the series in which the films were organised, are set out in detail. With a foreword from eminent film historian and filmmaker, Keith Brownlow, this extensively researched text explains the importance of the 9.5mm film, from its beginnings in the early 1920s to becoming synonymous with Home Cinema throughout Europe. Readers will also find a brief technical explanation on how 9.5mm films were produced, along with relevant images.

**Bronze Age Cultures in France** - N. K. Sandars 2015-02-12

Originally published in 1957, this book presents a comprehensive study of Bronze Age cultures in France, in their later phases from the thirteenth to the seventh century BC, placing emphasis on the role of 'Tumulus and Urnfield culture'. Avoiding an overly broad approach, the text focuses in the main on eastern and north-eastern France 'as it was there that the new cultures first rooted, and thence new ideas were diffused'. Numerous illustrative figures are included and notes are incorporated throughout. This book will be of value to anyone with an interest in the Bronze Age, archaeology and the prehistory of the French region.

**News Media Yellow Book** - 2004

**Genie Civil** - 1897

*Epic Arts in Renaissance France* - Phillip John Usher 2014

Studies the relationship between epic literature and other art forms (painting, sculpture, architecture) in the French Renaissance, exploring

the paradox that the heroes and themes in the art of the period are widely celebrated while the literary epics are largely unread.

**Gale Directory of Databases** - 1993

This is a guide to computer-readable databases available online, in CD-ROM format, or in other magnetic formats. Details include database descriptions, costs, and whom to contact for purchase. The material is indexed alphabetically, and by subject, vendor, and producer.

**The American Naturalist** - 1878

**A Certain Idea of France** - Phillip H. Gordon 1993-04-05

As France begins to confront the new challenges of the post-Cold War era, the time has come to examine how French security policy has evolved since Charles de Gaulle set it on an independent course in the 1960s. Philip Gordon shows that the Gaullist model, contrary to widely held beliefs, has lived on—but that its inherent inconsistencies have grown more acute with increasing European unification, the diminishing American military role in Europe, and related strains on French military budgets. The question today is whether the Gaullist legacy will enable a strong and confident France to play a full role in Europe's new security arrangements or whether France, because of its will to independence, is destined to play an isolated, national role. Gordon analyzes military doctrines, strategies, and budgets from the 1960s to the 1990s, and also the evolution of French policy from the early debates about NATO and the European Community to the Persian Gulf War. He reveals how and why Gaullist ideas have for so long influenced French security policy and examines possible new directions for France in an increasingly united but potentially unstable Europe.

2008 Writer's Market Deluxe Edition - Robert Brewer 2007-07-06

Stockpile and Accessibility of Strategic and Critical Materials to the United States in Time of War: Industrial representatives of producers and users of strategic and critical materials. 2 v - United States. Congress. Senate. Committee on Interior and Insular Affairs 1953
