## **Russian Émigrés in the Intellectual and Literary Life of Interwar France -**

Leonid Livak 2010-07-01

In a pioneering exploration of the intellectual and literary exchange between Russian émigrés and French intelligentsia in the 1920s and 1930s, Leonid Livak provides an impressively comprehensive bibliographic overview of a veritable "who's who" of Russian intellectuals and literati, listing all the material published by Russian émigrés or on topics pertaining to them

during the period under study. Focusing attention on a largely ignored chapter of European cultural history, this volume challenges historical assumptions by demonstrating processes of cultural cross-fertilization and illuminates the precedents Russians set for political exiles in the twentieth century. A remarkable achievement in scholarship, *Russian Émigrés in the Intellectual and Literary Life of Inter-War France* is a valuable resource for admirers and researchers of French and

**The Bourgeois Revolution in France, 1789-1815** - Henry Heller 2009

In the last generation the classic Marxist interpretation of the French Revolution has been challenged by the so-called revisionist school. The Marxist view that the Revolution was a bourgeois and capitalist revolution has been questioned by Anglo-Saxon revisionists like Alfred Cobban and William Doyle as well as a French school of criticism headed by François Furet. Today revisionism is the dominant interpretation of the Revolution both in the academic world and among the educated public. Against this conception, this book reasserts the view that the Revolution - the capital event of the modern age - was indeed a capitalist and bourgeois revolution. Based on an analysis of the latest historical scholarship as well as on knowledge of

Marxist theories of the transition from feudalism to capitalism, the work confutes the main arguments and contentions of the revisionist school while laying out a narrative of the causes and unfolding of the Revolution from the eighteenth century to the Napoleonic Age.

*The Fantastic in France and Russia in the 19th Century* - Claire Whitehead 2017-12-02 "Hesitation between a natural or supernatural interpretation of fictional events is the life-blood of the fantastic; but just how is this hesitation provoked? In this detailed and insightful study, Claire Whitehead uses examples from nineteenth-century French and Russian literature to provide a range of narrative and syntactic answers to this question. A close reading of eight key works by Alexander Pushkin, Vladimir Odoevskii,

Nikolai Gogol, Fedor Dostoevskii, Theophile Gautier, Prosper Merimee and Guy de Maupassant illustrates how ambiguity is provoked by such factors as point of view, multiple voice and narrative authority. The analysis of hesitation experienced in works depicting madness or ironic self-consciousness advocates the inclusion in the genre of previously marginalized texts. The close comparison of works from these two national traditions shows that the fundamental discursive features of the fantastic do not belong to any one language."

**Public Welfare, Science and Propaganda in 17th-Century France** - Howard M. Solomon 2015-03-08

Public medicine, popular education, state employment agencies, the diffusion of scientific and technical knowledge, the dissemination of information by the government—all these things are an indispensable part of the modern state. All were proposed in the seventeenth century by Théophraste Renaudot, who felt they were necessary to meet the new social realities of the time. With the support of Cardinal Richelieu he was able to attack the problem of poverty in a new way by setting up the Bureau d'Adresse, which grew from an employment agency to a clearing-house for many social services, including free medical care. The discussions

that were held there made it the most popular academy in Europe and the forerunner of the Académie Française. At the same time Renaudot was editing and publishing the Gazette, an important instrument of government propaganda. Howard M. Solomon considers each aspect of Renaudot's multi-dimensional career and examines the relationship between his activities and the needs and methods of the ministries of Richelieu and Mazarin. While they had Richelieu's support all his novel schemes flourished, but only the Gazette survived the Cardinal's death. Originally published in 1772.
